Write your name with the word "Dream" and stick it at a place
you would like to visit!

Map Match-up

This map has been labeled at many of the places that Cecil and Elton have visited. The souvenirs are labeled as well with their place of origin.

- 1.) See if you can guess which artifacts go with each location.
- 2.) Write your name on a post-it note and stick the post-it note on the map at a location you have visited.

Howard County

Howard County, Maryland, was organized in 1796. It was one of the original counties of the state. The county is named in honor of Howard, a prominent figure in the early history of the state. The county is located in the northern part of the state, and it is one of the most populous counties in the state. It is known for its beautiful scenery, its rich history, and its many cultural attractions. The county is a great place to live, and it is a great place to visit.

Howard County, Maryland, was organized in 1796. It was one of the original counties of the state. The county is named in honor of Howard, a prominent figure in the early history of the state. Piedmont National Wildlife Refuge

Managed Pine Forest

Unmanaged Pine Forest

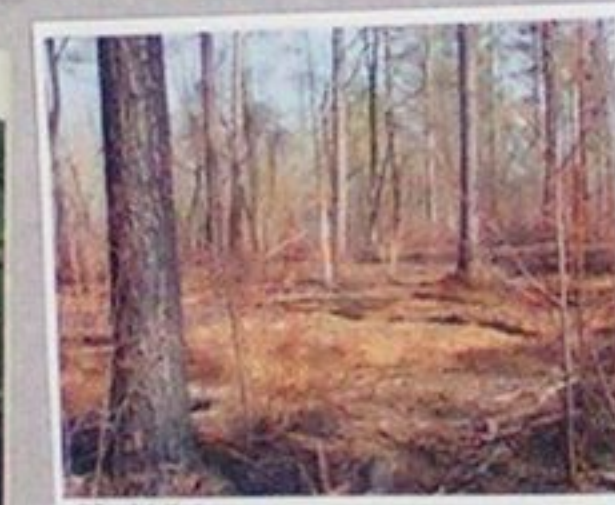

Draft Vision Statement

Piedmont NWR serves as a demonstration area of quality wildlife habitat through active forest management in the southern piedmont region. Management creates and maintains the dependence upon healthy oak-pine forest with areas of prairie and savanna for red-crested woodpecker, Bachman's sparrow, brown-headed nuthatch, bobwhite quail and associated wildlife species. Stretches of open fields along streams and wetlands provide enhanced habitat for Swainson's warbler, Kentucky warbler, and cane-dependent butterfly species. Cooperative partnerships integrate refuge wildlife habitat management into a landscape vision of a healthy forest. Wildlife-dependent opportunities are provided to enhance the public's awareness and appreciation of the area's natural resources for present and future generations.

Recreational Opportunities

Refuge Purposes

"... as a refuge and breeding ground for birds and other wildlife..."

"... for use as an insular sanctuary, or for any other management purpose for migratory birds."

"... conservation, management, and restoration of the fish, wildlife, and plant resources and their habitats for the benefit of present and future generations of Americans..."
